WORK EXPERIENCE

FULL STACK WEB DEVELOPER

Bubblebest, Zamboanga City

Jan 2023 - April 2023

I have taken the role of lead developer for this Software Engineering Finals Project, focused on creating a client-based solution. Our client for this project is Bubblebest, and we are developing a Online Water Refilling Ordering and Management System specifically tailored to their requirements.

As a lead developer, I handled both backend and frontend development aspects of the project.

Technologies utilized in our project stack include:

- PHP
- HTML
- CSS
- Bootstrap (CSS Framework)
- MySQL (Database Management system)
- JQuery (Javascript Library)
